# 7 Vocabulary 2

1 Read, think and write your answers in the shapes.

Something in your house that is broken.  
 Something cheap that you often buy.  
 Something in your classroom that is empty.  
 Something expensive that you would like to buy.  
 Something in your classroom that is full.  
 Something heavy that is in your school bag.  
 Something light that is in your pocket.  
 A very tidy place that you sometimes go to.  
 A very untidy place that you sometimes go to.  
 An unusual thing that you did last week.

2 Swap with a partner. Look at your partner's word and guess.

Would you like to buy an expensive bicycle? No.

Is your bicycle broken? Yes, that's right.

# 7 Grammar 1

1 Write ten *Have you ever ... ?* questions for a partner using the verbs in the box.

break hurt drive fall fly forget  
find go leave put ride see stand take

Example break Have you ever broken your arm?

2 \_\_\_\_\_

3 \_\_\_\_\_

4 \_\_\_\_\_

5 \_\_\_\_\_

6 \_\_\_\_\_

7 \_\_\_\_\_

8 \_\_\_\_\_

9 \_\_\_\_\_

10 \_\_\_\_\_

2 Swap questions with your partner and write short answers.

1 \_\_\_\_\_ 6 \_\_\_\_\_

2 \_\_\_\_\_ 7 \_\_\_\_\_

3 \_\_\_\_\_ 8 \_\_\_\_\_

4 \_\_\_\_\_ 9 \_\_\_\_\_

5 \_\_\_\_\_ 10 \_\_\_\_\_

# 7 Skills 1: Reading and speaking

1 Look at the pictures. What are the things used for? When and where do you think people first used them?

woolly hat

earmuffs

scarf

ice

ice cream

ice lolly

2 Read the article quickly and tick ✓ the inventions you read about.

## Creative kids

Chester Greenwood lived in Maine in the northeast of the United States, where winters are very cold. One day when he was 15, he was ice skating. His ears got terribly cold. Chester decided that he had to solve the problem. He went back home and made a band out of metal to go over his head. Then he asked his grandmother to sew two round pieces of fur on each end. When he put it on his head, the furry circles covered his ears and they didn't get cold at all.

Chester patented this invention in 1877, when he was 19. He went on to invent many more things in his life and became very rich.

One winter night in 1905 in San Francisco, it was extremely cold. Frank Epperson was 11 years old at the time and he was playing outside. He made himself a drink with some fruit powder and water. His mother called him in for dinner while he was mixing the drink, so he left the mixing stick in the glass and he ran inside. The next evening he found a frozen drink in the glass.

In 1922, many years after making his accidental invention, Frank took some ice lollies to a party for firefighters. They loved them so much that Frank patented them and opened a factory. By 1928 Frank's ice lollies made him a rich man.

3 Read the article again. Who are they true for? Write *Chester*, *Frank* or *Both*.

- 1 It was winter when he invented it. \_\_\_\_\_
- 2 He invented it by accident. \_\_\_\_\_
- 3 He was playing outside at the time. \_\_\_\_\_
- 4 He patented it many years later. \_\_\_\_\_
- 5 He became rich because of the invention. \_\_\_\_\_

# 7 Culture

## Life in Ancient Egypt

### 1 Look quickly at the text. What is it?

- 1 a leaflet for tourists in Cairo
- 2 a page from a school book about Ancient Egypt
- 3 an information sheet from a museum

  
  

### Life in Ancient Egypt

Visit the Life in Ancient Egypt exhibition to find out how people lived.

Rich people lived in big homes – or villas – next to the River Nile. The houses were white on the outside to keep them cool. The insides were beautiful. They painted the walls with light colours so they looked bright and clean and artists painted pictures on them.

Houses in Ancient Egypt usually had doors at the back and the front. These were about two metres higher than the ground to stop sand getting in. They didn't use stairs to get into their houses, they used ramps. The windows were high up in the walls. This was also to keep sand out. They had bars on them because of wild animals.

The living room was in the middle of the villa and the other rooms were all around it. There were bedrooms, children's rooms, kitchens and bathrooms.

Look at the model villa in the exhibition. You can see mirrors, an oven, shelves, beds, lamps, heating and a fountain. In the bedrooms, you can see make-up, perfume and lots of clothes.

Walk around the rest of the exhibition to find out about the homes of poorer people in cities and the countryside. Enjoy your visit to Ancient Egypt!

### 2 Read again and make notes.

#### Houses in Ancient Egypt – Villas

Where were they?

Who lived there?

What did they look like?

How did people get into them?

What were the windows like?

Which rooms did they have?

Some examples of their furniture.

Some examples of their possessions.
